Luke Woodward

Software Engineer

Experience

Software Engineer, Office of the CTO

HCA Healthcare • Feb 2018 - present

- Represent the Office of the CTO promoting proper architecture, design, and engagement
- Assist in documenting and communicating technical direction and strategies for enterprise deployments
- Define and document technical roadmaps enabling business capabilities
- Analyze proof-of-technologies
- Research new technologies for potential use with the delivery of healthcare

The Hub

- Co-created the enterprise architecture platform and oversaw development lifecycle
- Architected full PaaS environment in Azure
- Implemented Azure Functions as microservices for API layer
- Created React/Typescript SPA with integrated SSO
- Configured CI/CD pipelines in Azure DevOps for SPA and Azure Functions API across dev, qa, and production
- Leveraged NoSQL database Cosmos DB

Software Engineer

HCA Healthcare • Feb 2018 - Feb 2019

Neutron Design System

- Architected HCA Healthcare's enterprise design system based on Atomic Design Theory and WCAG 2.0 best practices
- Transposed and integrated design system into Vue, and React frontend products
- Configured, monitored, and maintained deployment in Azure App Service
- Collaborated with Inner-sourcing board to publish components as an npm package for enterprise consumption

Software Engineer - *Contractor*

HCA Healthcare • Sept 2017 - Feb 2018

- Developed MyCare TVaaP patient facing web application on LG WebOS client
- Implemented Socket.io on client and app server
- Configured Microsoft IIS Servers and Node Servers in Dev, QA, and Production Environments on Microsoft R2 VMs
- Versioned and maintained code in Azure DevOps
- Collaborated with Enterprise Architecture and TriStar Hendersonville Management and Nursing as part of enterprise smart room initiative
